

Das Gebäudeprogramm (The Building Programme)

Das Gebäudeprogramm is a national programme that supports the energy efficient renovations and the use of renewable energies in Switzerland. EBP provides a central service hub to ensure the smooth, professional running of the Programme.

The Federal Government and the cantons have been operating the Gebäudeprogramm since 2010. Over the 10 years of its duration the programme can grant up to CHF 280 to 300 million per annum. EBP runs the national central service hub for the energy efficient renovations, taking care of various aspects:

- Calculation and analysis of the CO₂ and energy impact
- Providing objective decision-making basis for the future development of the programme
- Examination of the structures and processes of the programme
- Ensuring the harmonised execution in all cantons on the basis of a set of implementation guidelines
- Support for the cantons during implementation

Finance

- Financial planning and management
- Distribution of grant funding
- Risk management
- Accounting

Communications (see also separate example project [here](#))

- Drafting of a communication concept and the planning and implementation of the measures
- Development and design of the corporate identity

Client

EnDK – Conference of Cantonal Energy Directors, working together with the Swiss Federal Energy Office and the Swiss Federal Office for the Environment

Facts

Period	2010 - 2016
Project Country	Switzerland
