

Wastewater disposal

With our work in the wastewater sector we aim to make a global contribution to health, quality of life and nature conservation. Our comprehensive services include consulting, design and implementation of international wastewater infrastructure projects. We further support our clients with procurement consultancy as well as with project management and quality assurance.

General planning for the construction of a sewage treatment plant for 15,000 inhabitants in Berovo, Macedonia

Renovation of drinking water and wastewater infrastructure in Osh and Jalal-Abad, sewerage in Osh, Kyrgyzstan

General planning tendering and developer support for the expansion of the WWTP Hinwil

We have many years of comprehensive experience in:

- the development of concepts and feasibility studies
- engineering, procurement and implementation of wastewater infrastructure projects
- corporate development, training and knowhow transfer

We place particular importance on the following:

- operation and maintenance as well as investment planning
- risk assessments
- benchmarking
- economic assessments, tariff models and affordability
- urban water management and masterplanning
- implementation consultancy including tender design, procurement, construction supervision, commissioning and performance testing
- consulting in the fields of elimination of micropollutants and phosphorous recycling
- Climate change adaptation
- Infrastructure Resilience
- Real time control of sewage systems

Thanks to our proven interdisciplinary way of working and the diverse expertise of our staff, we are able to handle nearly any challenge in the wastewater sector. We also have a very strong international network which allows us to closely and effectively work with our clients. In our work, we place great value on solutions that are economically optimized and adapted to the local conditions and the client's specific needs.

Our customers are international financial institutions as well as operators and owners of wastewater plants and authorities in Switzerland.
